EASILY CREATE HIGH QUALITY INTERACTIVE MULTIMEDIA PROJECTS!

# MEDIAWORKS®

MediaWorks® is a multimedia editing software suite allowing anyone to easily create high-quality interactive multimedia projects for the web, mobile devices, DVDs & computers! Unlimited layers are supported so you can put any number of videos, pictures, graphics, text and titling, animations and other media "Objects" anywhere on the screen. Furthermore, MediaWorks provides a powerful Sequencer window allowing the precise timing of when Objects appear and disappear in your production. MediaWorks includes everything in MovieWorks with the addition of features for creating menus, buttons, custom play controls, and unlimited "Scenes", making it possible to create productions of any length. MediaWorks' intuitive interface and comprehensive feature set allows users of all ages to create multimedia projects that rival those created with expensive, complex applications, at a fraction of the cost, time and learning curve!

## FIVE PROGRAMS IN ONE

MediaWorks works seamlessly with the included entry-level Sound, Paint/Photo, Video and Animator applications. Import, link, animate, position and sequence an unlimited number of media "Objects".

## EASY & FLEXIBLE DISTRIBUTION

Finished interactive projects are easily shared using free MediaWorks Player application. Export any "Scene" in a variety of industry standard formats and playback on a computer, DVD player, iPad or other tablet, iPhone, HDTV or web page.

## OBJECT-ORIENTED SCREEN LAYOUT

Create productions up to 3840 x 2160 in size. Objects may be layered in any order and positioned anywhere on the screen. Line them up using the alignment options, or use the Coordinates window and Arrow keys for precise positioning.

**Presentations & Training**

**Movies**

**Animations**

**School Projects**

## MULTI-TRACK, TIME-BASED SEQUENCER

Easily edit the duration and start time for your objects by simply resizing and/or moving their corresponding timebars in the Sequencer window. Quickly Auto-Sequence multiple objects.

## POWERFUL INTERACTIVITY

Create or import an unlimited number of buttons for making menus, or linking to web pages and external files. Create custom playback controls for Play, Stop, Rewind and Quit.

## ANIMATION & EFFECTS

Move any Object on a path with the animation tools, add time-based scaling and layering effects and scroll text. Extensive transitions library including zoom, wipe, dissolve and many more.

*"I was able to create a MediaWorks' presentation in less than an hour. If you want to dip your feet into the multimedia pool, MediaWorks offers a low-cost, user-friendly way to do so."* **Presentations Magazine - Best Budget Multimedia Authoring Tool**

*"MediaWorks is a powerful, versatile tool for creating movies, slide shows, and interactive presentations. Factor in its attractive price, and it is worthy of a hearty Eureka!"* **Macworld Magazine - 4 Mice**

## SYSTEM REQUIREMENTS

- Mac OS X 10.9 or better • 8 GB of memory • 2 GB of hard drive space
